

The Sky Fell!

THAT WHITE STUFF at left is rain, falling in torrents Friday afternoon. The towering black thunderheads, shown blotting out the sun, above, have become a familiar sight to area residents, and a welcome sight too, after long months of drought.

Now

With F.M.L.

SEVERAL THINGS--St. Edward Hospital officials Tuesday night during open discussion at Cameron Industrial Foundation's membership meeting said November 15 is the date for dedication of the new \$1.4 million facility.

Construction is passing the 90 per cent completion schedule and workmen are well along in installation of finishing work on rooms, hallways and interior decor.

NOW-NOW-NOW

If the South Milam oil field continues the gain in production, it will could herald a new economic force in Milam.

Pro-ration is higher than anytime in 21 years, following tightening fear of oil loss in the Middle East amidst revolution and Arab - Israeli confrontation.

This is another relationship which bodes well for a Central Texas County starting in an area totally remote to Texas.

NOW-NOW-NOW

Glasses are easy to lose, but difficult to dispose of.

Your Herald had a pair of men's glasses which it advertised for a number of issues and went unclaimed. They were in the office for 3 or 4 years.

Finally, someone decided the owner would not claim them and threw them into the daily conglomeration of disposed newspaper exchanges, mail and miscellany.

An employee of the City called the same day they were picked up, advising the glasses looked too good to be thrown away and wondering if we had not mistakenly chucked them out.

The alert city employee, unknown to us, has the right idea. But we can't locate the right person for the glasses. Anyone missing a pair of black-rimmed prescription glasses might inquire at the City Maintenance Barn or City Hall if they want them.

Herald employee Mrs. Billy Seaton was overheard telling fellow employee Charles McAtee, "This is our junk drawer, so if you get shoved into it, you'll know where you stand."

Yoe JVs, Freshmen

Drop 2 To Taylor

Yoe's junior varsity lost to Taylor Thursday night to the tune of 27-6 at Taylor Field.

Virgil Jones scored the lone Yoe touchdown. The offense, marred by fumbles, was led by quarterback Glen Cummings and the running of Stanley Rosemond.

Yoe defense looked good and was led by Allan Coleman.

FRESHMEN

The freshmen suffered their first defeat of the season when the Ducks scored 6 to Yoe's 0.

Sound defense allowed just the one Duck touchdown while the offense saw several touchdown passes dropped.

Coaches for the two teams are Ernie Lawrence and Price Minter.

Rogers 12, Academy 7

ACADEMY

Rogers' Homer Smith Friday night, scored on a 2-yard touchdown run in the second quarter and James York went over on a fourth quarter quarterback sneak for an Eagle win over Academy, 12-7.

Academy countered in the second quarter with a 14-yard run by Terry Kelly with Danny McCray converting.

Both attempts for extra points failed for the Rogers Eagles following the Smith and York touchdowns.

It was Rogers' first win in three games this season.

La Grange 7, Rockdale 0

LA GRANGE

A La Grange halfback ended a scoreless defensive struggle here Friday night when John Mode kicked the final yard for paydirt with 4 minutes remaining.

La Grange converted to make it a 7-0 win over Rockdale Tigers, a 11-7 winner over the Yoemen last week.

A 47-yard drive brought the Leopards to Mode's final dive. La Grange recovered a Tiger fumble at the Tiger 47.

Mode led the scoring drive. Rockdale went only to the Leopard 35 in an otherwise tight defensive struggle. It was La Grange's second win and Rockdale's first loss of the year.

La Grange hit no passes, but rushed for almost 250 yards, intercepting three Tiger passes.

Herald Offers

Free Portraits

Your Cameron Herald, Thursday and Weekend, is offering new subscribers and renewals to the semi-weekly a free 8 x 10 color portrait.

In conjunction with professional photographers, your Herald is giving a color portrait either of one member of your family or a family group.

You and your family may receive this free 8 x 10 color picture by:

ONE - Taking out a new subscription to the semi-weekly Thursday and Weekend Herald, \$5.50 per year in the Milam area, \$6.50 per year outside of Milam area, or

TWO - Renewing your subscription to the semi-weekly Herald.

New or renewal subscribers should complete the coupon in the advertisement on page 5 of this edition, enclosing the subscription price.

Sittings will be scheduled late in October.

1 of 6 United Agencies...

Red Cross Help Is Personal

(Another in a series of articles about local agencies supported by the United Fund, which has a budget of \$10,050 for this year. A dinner on Oct. 13 will kick off the annual drive in Cameron.)

The American Red Cross, which has been allocated \$2400 in the UF budget, works on a local level with the local money.

A report of local Red Cross services in Milam County during the past year showed 149 telephone calls and 53 telegrams had been paid for, most of them contacts made for servicemen and their families.

Inquiries handled by the Red Cross Home Service worker included 255 concerning servicemen, 15 for veterans, and 30 for civilians, for a total of 290.

A large part of the funds goes to finance the county blood program.

Cost of the vital blood program to the county Red Cross unit is 8 cents per capita, based on the 1960 census. This amounts to \$1780.

The cost is for collecting and processing blood donated by countians, and for replacing blood used by patients in out-of-region hospitals.

From July 1, 1969 to June 30, 1970 Milam County hospitals used 733 units of blood.

Breakdown of this total shows Newton Memorial Hospital used 134 units; St. Edward Hospital 159; and Richards Hospital 299.

Also used were 242 units for patients in nonregional hospitals.

Blood products used in the county included 16 units of packed red cells and two units of serum albumin.

Less than half, or about 46 percent of local funds are sent to the National

American Red Cross program. This money is used for disaster relief in instances such as Hurricane Felice.

Other services extended through the local Red Cross Chapter include emergency loans to servicemen who may have to fly home and return to their stations. H. D. Maxwell, former chairman of the Milam Red Cross Chapter, said most of the loans are repaid, but a few have to be "written off the books."

George Hutton of Rockdale is presently chairman of the county chapter.

United Fund workers will begin contacting businesses following the Oct. 13 kickoff and the drive in residential areas will be held after the business drive.

Other agencies allocated funds in this year's United Fund budget include Little League, USO, Boy Scouts, Girl Scouts, and Salvation Army.

Trojan offense. That enabled the Yoemen

to gain a little momentum. A 23-yard pass play from Brashear to Halfback Ernie De La Rosa along with some hard running by halfback Emanuel Thomas and fullback Ed Whitley, enabled the Yoemen to be knocking on the door for the first score. Trojan defense stopped the Yoemen at the 12-yard line. And in the fading moments of the first quarter with Brashear holding, Lewis put the Yoemen on the scoreboard 3-0.

Following the kickoff, the Yoe defense stopped the Trojans when Richard Cummings and Whitley battled away a halfback pass to Trojan end Clifton Sullivan. A Trojan punt went to halfback Emanuel Thomas at his own 38. He followed the Yoe forwards and rambled to the West 17 only to fumble to the Trojans.

Once again, the Yoe defense, led by Dale Schigut, John Bailey, and Whitley, rose to stop a potent West Offense. Again the Trojans were forced to punt. On the receiving end of this kick was junior quarterback Richard Cummings. Taking the ball at his own 40, the speedy youngster cut and slashed his way 46-yards to the Trojan 14.

Yoe's offense found the going rough as Brashear sent Thomas into the Trojan defense for 5 tough yards. De La Rosa a 180 pound freshman, ripped off 3 more yards to the Trojan 6. Thomas dove inside the 5 for a first and goal. Thomas and De La Rosa moved the ball to the 2-yard line where Whitley scored on a third down. The 2-point conversion was good as Brashear, looking to throw, was forced to run and dove into the endzone.

Time ran out in the half with the Yoemen owning the ball at the Trojan 37, Cameron 11 - West 0.

Following the second half kick to the Trojans, the Yoe defense once more snuffed out a fourth down pass try by West.

Yoemen took over at their 32. First play from scrimmage De La Rosa broke loose on a 25-yard scamper to the Trojan 40. Brashear sent Thomas for a tough three yards. Whitley took the next call for 4 yards to the Trojan 35. De La Rosa answered another call with a 22-yard gain to the Trojan 13. There seemed to be no stopping the young Yoe halfback as Brashear handed off to De La Rosa once again, who ripped off 11 yards to the Trojan 2. First and goal, De La Rosa took the ball, but is stopped after only a yard. With 6:31 remaining, Brashear followed a block by his center and fell into the end zone.

The Yoemen then lined up in running formation on a two-point conversion try. Brashear dropped back and misfired to his favorite receiver, Carroll Michalka.

The Yoemen once again kicked off to West. The defense took its test of the night as the defense Norman Trubee, John and Jim Bailey, Sam Knight, Joe Lewis, Joe Vaculin and Whitley came up withone big play after another.

The Trojan offense was not to be denied. West drove to the Yoe 18 in the fading moments. Piscacek, although intercepted once by Yoe safety Joe Vaculin, hit several passes which brought the Trojans within scoring range. The Yoe defense took over at the Yoe 25 after Trojan pass falls astray.

The home crowd sensed victory and started to leave the stadium. In fact most had already left when Trojan quarterback, Piscacek, with 4 seconds showing on the clock, fell back and lofted a 37-yard pass to halfback Wolfe for

the lone Trojan score. Try for two failed and the Yoemen have a 2-1 season to carry to the threshold of the Rosebud-Lott Cougars.

Notices Going Out...

Tax Rolls Increase

Buckholts Readies For Annual Homecoming

Buckholts High School will hold its annual homecoming festivities Saturday, October 3.

Activities will be highlighted by the crowning of a Homecoming Sweetheart at 7:45 p.m., just before the Badger - Aquilla game at 8.

Sweetheart candidates are Martha Vaculin and Debbie Boedeker, seniors, and sophomores Jo Ann Beckhusen and Linda Marek.

The school is sponsoring a Homecoming Supper before the game with turkey and dressing main items on the menu. The supper will be served Saturday from 4 until 7 p.m.

Tickets for the supper may be purchased from 5th, 6th, 7th, and 8th graders and will also be sold at the door. Cost is \$1.25 for adults and \$1 for students below the 9th grade.

All Buckholts student exes, parents, and friends are invited to attend both the supper and game.

Sales Tax Check Reflects Growth

A \$14,802.65 check was received by Cameron this week representing 1 percent of taxable retail sales in Cameron for the quarter ending June 30. It was an increase of almost \$2,000 over the previous quarter and an increase of \$2,400 over the same period in 1969.

City sales tax collections for the period ending March 31 totaled \$12,959.29.

School Rate Up, City, County Unchanged

Tax notices for county, city and schools are being prepared this week for mailing after October 1. Tax rolls have increased for all three units through annexations, higher valuations and increased valuation rates.

CISD TAXES

Cameron School taxes show a one-third increase, from a total \$197,265.79 last year to \$260,944.71 this year. CISD property owners will be paying \$1 on 50 percent of actual property value. Previously the rate was \$1.50 on 25 percent of actual value.

For individual property owners, for example, it means property valued at \$4,000 that drew a tax of \$15 last year will be taxed \$20 this year.

School tax notices will be in the mail Monday.

COUNTY TAX

County taxes will remain the same for most in Milam County although valuations are up \$1,173,080 over last year. The increase reflects improvements in manufacturing plants and railroad property.

Valter White, county tax assessor-collector, said tax notices to be mailed Thursday will total \$456,026. This will be divided into four units with the county receiving \$334,858, the state \$111,714, watersheds \$6,398.18 and county schools \$3,054.96.

CITY TAX

Annexation of over 4,000 acres north of Cameron is reflected in City tax rolls, up \$7,000 for 1971.

City Secretary J. B. Fuller said tax notices totaling \$116,458.61 will be mailed to city property owners Monday. Tax notices last year totaled \$109,911.79.

Fuller said city services have been extended to the newly annexed section with the completion of water and sewer lines this summer.

Minerva Homecoming

The annual homecoming at Minerva will be held Sunday, Oct. 4 at the Minerva Community Center. Mrs. Harvey Dean, publicity chairman said, "All friends of the community are invited to bring a basket lunch and join us," she said.

AREA FOOTBALL ...

Yoe Defeats Trojans, 17-6

An umbrella-equipped crowd saw the Cameron Yoemen pickup their second win of the season by downing the previously undefeated West Trojans by the tune of 17-6.

The Yoemen put together a fine ball game. The offense "put it all together" as they profited on Trojan miscues and drove 33, 14, and 77 yds. to score.

The defense which was strong most of the night yielded the first touchdown from scrimmage scored against them this year. That came with 4 seconds left in the game on a 37-yard pass play.

The Yoemen took the opening kickoff. The ball changed hands several times early in the game.

A Trojan drive was spoiled at the Yoe 45 when Ken McLerran fell on a Billy Wolf fumble. From there, the Yoemen drove to the Trojan 12. Where they had to settle for a 22-yard field goal off the toe of senior tackle Joe Lewis.

The first Yoe touchdown, set up by Richard Cummings' fine punt return, came when Edward Whitley scored from 2 yards out. The 2 point conversion try was good as quarterback Robert Brashear, looking to pass, elected to run and barely made it inside the flag for the final score of the half: Yoe 11, West 0.

It was well into the second half before the Yoemen got on the scoreboard with their final tally. This came after the Yoe offense put together a 77-yard march with Brashear getting the final yard.

The final conversion failed when Brashear misfired to end Carroll Michalka.

With the scoreboard clock showing 4 seconds left in the game, West quarterback Charles Piscacek completed a strike to halfback Billy Wolf. The try for two failed and the final score stood: Yoe 17, West 6.

The Yoemen took the opening kickoff and failed in their first few series.

Well into the first quarter, Ken McLerran, recovered a Billy Wolf fumble at the

Rosebud-Lott 48, Reicher 0

WACO

Rosebud-Lott, the next grid opponents of the Cameron Yoemen, like now vanquished West, crushed Waco Reicher Friday night 48-0. West had defeated Reicher 28-0 a week ago.

The Cougars scored in every quarter, almost at will, as quarterback Kenneth Coulter engineered R-L's third straight win, leaving the post to an understudy most of the second half.

Coulter himself scored from 14 and 27 yards out and threw a 16-yard strike.

Reicher could not move the ball against the R-L Cougar line, which in three games is unscored upon. The Reicher club went in to Rosebud-Lott territory once in the game.

Rosebud scored seven touchdowns, Coulter first from 27 yards out. Tim Kirksey converting once of the three times during the evening.

Mark Olbrich scored on a pass interception and Coulter hit end Kevin Scott for the third score of the first half.

Coulter, Haupt and Williams scored touchdowns in the second half from scrimmage while R-L's Luther Alexander went 15 yards with an interception for a score. And Kirksey kicked a 32-yard field goal.

Statistics showed Reicher with a minus 22 yards rushing. Rosebud-Lott led every department by huge margins. They play Cameron next week.

'Hard Times' Find East Texas - Oilman's Dream

(Ed Note: Following is the second in a 3-part series on the fabulous East Texas oil field discovery that brought wealth to many Texans, but only debt for it's discoverer.)

DALLAS—Forty years ago on September 5, 1930, Columbus Marion "Dad" Joiner found oil in the piney woods of Rusk County, ushering the East Texas field. The greatest field in the world at the time, it reshaped the destiny of Texas and gave the United States an unparalleled oil supply. The nation has dipped into this reservoir time and again to meet emergencies brought on by World War II, Korea, two Middle East wars, and four decades of intermittent conflict.

"We are now drawing on this great field again to meet the present tanker crisis occasioned by the events in the Middle East and Libya," says Kenneth E. Montague, president of the Texas Mid-Continent Oil & Gas Association, in commenting on the fortieth anniversary of the discovery. "We are fortunate that enlightened conservation measures have preserved this field far beyond the brief life of others discovered in that era."

More than four billion barrels of oil have been produced from the East Texas reservoir. Oil men consider a field that will produce 100 million barrels of oil a giant—and East Texas still has oil left.

In the beginning, the Joiner discovery couldn't have come at a better time. The nation was in

the trough of the Great Depression and East Texas had been hit particularly hard as it had just endured two years of unprecedented drought.

The hard times were mirrored in Joiner's drilling rig: a ramshackle derrick made from yellow-pine timbers and an antiquated engine driving a worn-out drawworks and pump. This was the machinery that had been boring on Mrs. Daisy Bradford's farm for three years—with bad luck dogging Joiner's every step. Seventy years old at the time, in poor health, and almost broke, Joiner had already failed twice—junking one hole at 1,098 feet in February, 1928, and the second at 2,518 feet with stuck pipe in the hole in March, 1929.

But his driller, Ed Laster, had pushed the third try to 3,536 feet into the Woodbine sand where the oil was thought to lie—though it took an agonizing year and four months. Laster was to say later, "If we'd had a rig that wasn't held together with safety pins and bailing wire and if we'd had the money to pay the crew, we could have drilled this hole in six weeks."

One account of the discovery says the well spouted oil over the top of the derrick when the test tool on the bottom of the drillpipe was opened. Another reports that the test tool failed to open. Still another says a core was brought up from the well and Joiner said, "It's oil all right."

No matter how it happened, the discovery wrought a tremendous change in Texas. It was the herald of a new era and a new order of society.

Early wells in the East Texas field drew big crowds. Here is the bringing in of the No. 1 J. K. Lathrop in Gregg County. This well was 27 miles north of the Joiner discovery and gave the first inkling of the huge scope of the field.

Texas in 1930 was predominantly an agrarian society of farmers and ranchers whose crops were cattle and cotton. Native capital was in short supply. With the development of the East Texas field came a new breed of Texans: petroleum engineers, geologists, refiners, roughnecks, pipeliners and men skilled in "putting together a drilling deal"—in short, men experienced in finding and producing oil.

With these men came money, as East Texas gushed capital in a black torrent. This was the capital that led to the discovery of oil on the Texas-Louisiana coastal plain, in deep West Texas pools and throughout the state. Many of the skyscrapers that began to rise in Houston, Dallas, San Antonio, and Fort Worth had their foundations in the Woodbine sands.

The boom is on. News and pent-up excitement over the find

had been building for a month before the well was brought in. Major—company oil scouts—thinking the well had possibly been "salted" with oil and leery of the shaky East Texas land titles (these weren't settled until years after the discovery)—hadn't paid much attention to the well.

But the East Texans did. Here was water in the desert and manna in the wilderness for the impoverished area.

Continued next issue.

Drama From The Undramatic...

Cameron and Milam County are seeing dramatic results of undramatic planning.

Something galvanizes people when they can unleash energies in proper perspective, proper direction with measured cadence in unison.

Looking back, we sometime wonder how all this cohesion comes about. . . . except to know the "frame of reference" is broad here and focused on Cameron and Milam County's role in a much larger scheme of things.

Industrial development is a notable success here because 15 men, of divergent view, of different age, of varying background contribute to one major effort which creates problems as it solves others.

Coming up will be an analysis by Cameron Industrial Foundation of a continuing problem in all small cities -- and major ones for that matter -- the matter of adequate housing.

The other elements continue to fall in place, mainly we think, because people want them to. Perhaps concerted

attention will likewise resolve this community problem. It is already alleviated by other efforts. But as industrial development grows, so will this particular need.

It appears to us respect is displacing popularity in individual attitudes among Cameronites and Milam Countians. That is a major achievement, the cornerstone of productive effort limited only by energy and foresight.

How often we are admonished to "get into the spirit of the thing" whatever the "thing" might be. If it is industrial development or resolution of community problems once long standing, Cameron and Milam County have the spirit.

It is powerful stuff, heady stuff, community success. It is inevitably individual success stories, which join here for whatever gains county-seat Cameron continues to make.

We wouldn't have it any other way.

Hunters' Questions About 1968 Gun Law Answered

DALLAS

Hunters from the Southwest have been contacting Internal Revenue's alcohol tobacco and firearms division in trying to find out how the Federal Gun Control Act of 1968 affects them.

"Apparently many hunters are under the impression the Gun Control Act seriously restricts their right to hunt," said Bill L. Gaunt, ATF assistant regional commissioner. "The primary purpose of the law is to disarm criminals, not regulate sportsmen," he said.

Gaunt said ATF investigators are being asked a great many questions about the Law, especially during the current hunting season.

"Here," he said, "are some of the questions we have been asked, and the answers we give."

Q. My neighbor has asked me to go quail hunting with him this fall. This means that I must buy a shotgun. Under the 1968 Gun Law, how do I go about buying this gun?

A. Go in person to an authorized gun dealer. Identify yourself and sign a form stating you are not prohibited by the federal gun control act from receiving guns or ammunition in interstate commerce.

Federal law states that guns and ammunition cannot be sold to individuals who are under indictment for or convicted of a felony, or fugitives from justice, or unlawful users of drugs, or persons who have been adjudged mentally defective. Also included are those who have been dishonorably discharged from the armed forces, aliens who have illegally entered the United States, and persons who have renounced their American citizenship.

Of course, if you are under 18 years of age you cannot buy guns or ammunition at all. If you are between 18 and 21 you can buy shotguns, rifles, and ammunition for them; but not handguns or handgun ammunition.

Q. I'm from North Texas and plan to hunt deer in Colorado. Can I buy ammunition there or should I take what I need with me?

A. You can buy ammunition in another state as easily as you can in your own. Just go to a dealer and identify yourself. You are not required to sign anything. This assumes, how-

ever, that you are not prohibited by federal law from receiving guns or ammunition in interstate commerce.

Q. I own a small ranch in Oklahoma and have always carried a carbine on the gun rack in my pickup truck. Two weeks from now, I plan to deliver some breeding stock to a buyer in Kansas, and would like to do some hunting while there. Can I take my gun across the state line?

A. As far as the federal gun control act is concerned, you need not notify nor obtain permission from anyone to transport the carbine in your pickup. Keep in mind, however, that some states have laws governing the transporting of firearms.

Q. I live in Albuquerque and have taken my daughter hunting each year since she was a little girl. Recently she married and moved with her husband to El Paso. We'll visit them in El Paso during Thanksgiving and I'd like to give her the 410 shotgun she used. Can I legally give it to her without breaking the federal gun law?

A. Although you cannot transfer the gun yourself, there is a legal way to accomplish what you want done. Go with your daughter to a licensed gun dealer. Transfer the gun to the dealer who, in turn, will transfer it to your daughter. The gun dealer will record the transaction and, from a legal standpoint, it will be the same as if your daughter were buying the gun direct from the dealer.

As a concluding statement, Gaunt said it is important that hunters and sportsmen check on local and state laws, such as game laws and state firearms control laws, which may also affect their hunting activities.

MRS. JESSE KIRKLAND BAKER

Baker-Daigle United At St. Mary's Church

A recent wedding at St. Mary's Catholic Church, Hearne, united Catherine Theresa Daigle and Jesse Kirkland Baker.

The bride, a student at El Centro College in Dallas, is the daughter of Mr. and Mrs. John Daigle of Church Point, La. Mr. Baker is the son of Mr. and Mrs. Dillard Baker of Houston and Gause. He is a graduate of the University of Texas and received a Dr. of Jurisprudence Degree from SMU Law School. He is a member of Kappa Sigma fraternity.

The bride was given in marriage by William R. Niblack of Houston. She wore a gown of angel skin peau fashioned with a scalloped Sabrina neckline of re-embroidered aliencon lace sprinkled with pearls. The lace extended onto the full cuffed Camelot sleeves and cascaded in a wide scalloped panel on the A-line silhouette to the hem. Two back panels flowed down into the full attached chapel length train and were outlined with lace extending around to the front panel.

Friends To Open Club Year

Opening meeting for the Cameron Friends of the Library is slated for 4 p.m. Wednesday. Both members and prospective members are invited to attend.

Program for the September meeting will be a review of the book "True Grit" presented by Mrs. Hazel Richardson, Bryan Librarian.

Friends of the Library membership drive is still in progress and prospective members will have an opportunity to join at the September meeting. In addition to the varied programs open to members, the Library Friends participate in projects benefiting the local library. Due this year, as in the past, will provide additional opening hours for the Cameron Library.

Friends will also sponsor a book fair later in the fall when duplicate copy volumes received at the library will be sold to the public. Proceeds will be used to purchase new books.

Hosts for the meeting Wednesday will be Friends of the Library officers.

Book Review For Pleasure Profit Club

Mrs. R. M. Clark was hostess for the Pleasure and Profit Club meeting at her home Thursday afternoon. African Violet plants, Mrs. Clark's hobby, were placed at vantage points throughout the house.

"The Saber - Tooth Curriculum" by J. Abner Peddwell was reviewed by Mrs. Herbert Nance. The foreword was written by Harold Benjamin who is a former Dean of the College of Education at the University of Colorado and the University of Maryland. He is Professor Emeritus at George Peabody College for Teachers.

The book is a series of five satirical lectures tracing the "Three R's" evolution to today's many faceted curriculums in colleges of education.

Mrs. J. A. Bowling, club president, conducted a short business session with twelve answering the roll call.

A salad plate and lemonade were served to members and one guest, Miss Christine Laws. The Pleasure and Profit Club will meet October 8 with Mrs. Bartow Jackson.

Open House To Open Ford Terrys

Mr. and Mrs. Ford Terry will be honored with an Open House in their home at 927 Harvard St., Houston, on Sunday, October 4, celebrating their 50th wedding anniversary.

Hosts for the 2 to 5 p.m. Open House will be the couple's children.

Mr. and Mrs. Terry are natives of Cameron and made their home here until 1942 when they moved to Brady and later to Houston.

Miss Massengale Mr. Caroom Wed

Miss Patricia Carol Massengale and Mr. Douglas Grady Caroom were married at 7:30 p.m. Saturday at St. Luke's-on-the-Lake Church at Lake Travis.

The bride is the daughter of Col. and Mrs. Herbert W. Massengale of Austin and the granddaughter of Mrs. H. W. Massengale of Cameron. She is a graduate of the University of Texas at Austin.

The groom, son of Prof. and Mrs. Hiram Caroom of Timonium, Maryland, is also a graduate of the University of Texas at Austin and is presently a teaching assistant in the Dept. of Zoology at the University.

The bride was given in marriage by her father. She wore a gown of silk organza and Venice Baroque lace in princess silhouette. The molded bodice with lace ringed Victorian collar featured brief puffed medall sleeves and a panel with self-covered buttons, extended from the neckline to the lace encircled hemline. The slim stemmed skirt was fashioned with a court train edged in lace and fell to a chapel length. Her elbow length veil of silk illusion fell from calet of lace leaves with looped velvet bark bows enhanced with seed pearls. Her bouquet was a cascade of stephanotis, gardenias and baby's breath.

Attendants were Miss Deanna Cluck of Lubbock, Mrs. Ray Porter, sister of the groom, of Nashville, Tennessee, and Miss Sue Petty, cousin of the bride, from Rockdale. They wore ankle length dresses of violet chiffon over linen with lace trim. They each carried a cascade bouquet of deep purple asters.

Peyton Thompson of Houston was best man. Groomsmen were Larry Wolfe of Washington, D. C. and Chris Yurkman of Chicago, Ill. The couple's brothers, Mike Massengale and Phillip Caroom, served as ushers.

Following the wedding ceremony a reception was held at the Lost Yearling Steak House at Lake Travis.

MRS. DOUGLAS GRADY CAROOM

Luncheon For Guests

Mrs. C. W. Bradbury was hostess for a luncheon Sunday, September 20, following the christening of her granddaughter, Elizabeth Bradbury Elliott.

Out of town guests included paternal grandparents, Mr. and Mrs. A. B. Elliott of Victoria; Mr. and Mrs. J. D. Kercheville and Kevin of Houston and Dick Jenness of Boston.

Also, Dr. and Mrs. H. C. Watson of Waco, Mrs. Joe Hale of Lufkin, and Mr. and Mrs. Alfred Poetter of Franklin.

Personal Mention

B. F. Archer, owner of Archer Electric, is a patient at St. Edward Hospital following surgery last week.

Mrs. Ella Hooks Dobbins, who will observe her 93rd birthday Tuesday, has been visiting in Houston for several weeks.

A Lot of Change Since '81. Since 1881, 63 countries have used pure nickel for 159 denominations of coins in 237 types.

To Mr. and Mrs. George Knappek of Granger, a girl, Jacqueline Denise, born at 12:16 p.m. September 11, 1970, 7 pounds 13 1/2 ounces at Johns Community Hospital in Taylor. Grandparents are Mr. and Mrs. Joe Sevik of Buckholts and Mr. and Mrs. John Knappek of Granger.

To Mr. and Mrs. George Freeman of Cameron, a boy, David, born Sept. 22 at St. Edward Hospital.

To Mr. and Mrs. Willie Oliver of Cameron, a boy, James Michael, 7 pounds 10 ounces born Sept. 24 at St. Edward Hospital.

You Don't Say . . .

EXTEMPORANEOUS

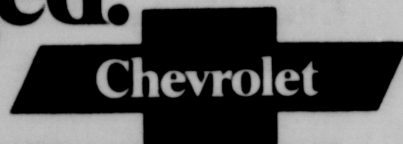

If you are referring to made, done or uttered on the spur of the moment without any prior planning or preparation.

IMPROMPTU (in PROM too) is correct for the above. EXTEMPORANEOUS (ex TEM po RAY nee us) is applied chiefly to formal speeches and signifies that they are not read. Their content may have been planned but not in exact words.

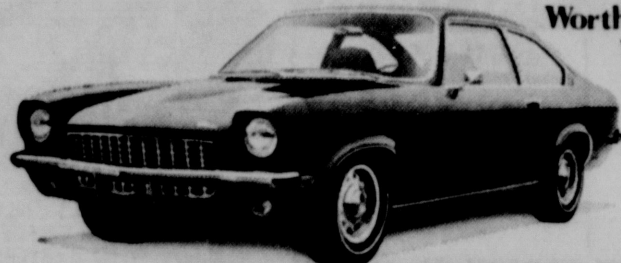

I emphasize, declare, stress and assert that a powerful vocabulary is the means by which the impromptu speaker woos and wins his audience.

Copr. by Adria Allen

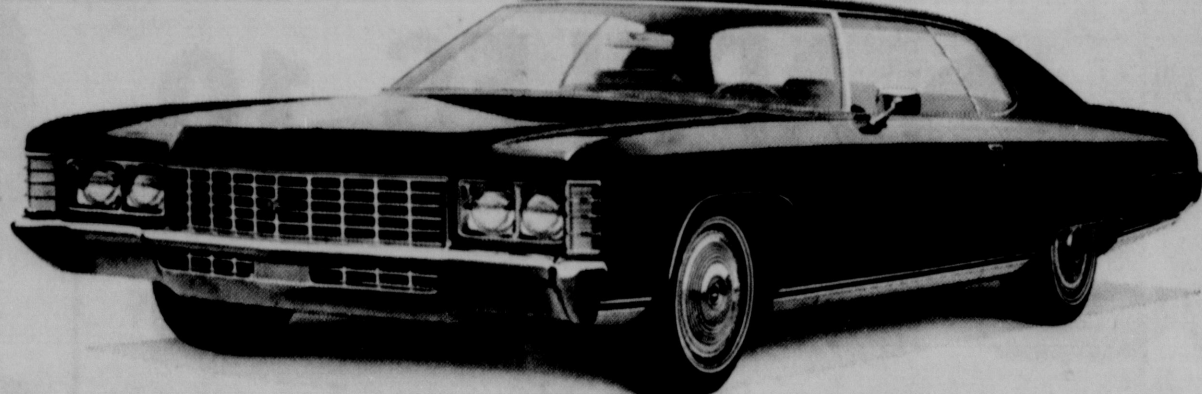

1971. You've changed. We've changed.

Worth seeing. Worth owning. Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Avanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's.

Gov. Smith Chides Eggers On Highway Fund Issue

Gov. Preston Smith says Republicans are "conducting a campaign of organized hypocrisy" in Texas and chided GOP gubernatorial candidate Paul Eggers for his views involving the federal highway trust fund.

Eggers had said in August that he would favor using part of the fund to help cities set up rapid transit systems to solve their traffic problems.

In a Sept. 22 press release, Gov. Smith said, "The Republican candidate for Governor wants to break into the Highway Trust Fund to help finance mass transit, while the Republican candidate for U. S. Senator stoutly opposes such division."

Speaking at a reception in Conroe on September 23, Eggers said he has "rejected" the position he took "a few weeks ago" regarding the national Highway Trust Fund.

Eggers said the National Governor's Conference recommended that "a small percentage of the national highway trust fund be diverted for the purpose of studying mass transit systems."

In his speech at Conroe, Eggers said "I'm convinced that the recommendation of the Governor's Conference, if implemented, would ask Texas to support a study which is aimed at solving the mass transit problems of the congested cities of the East. I will actively oppose bills now pending in the U. S. Congress which might in any way threaten the integrity of the Highway Trust Fund."

In citing the senatorial candidate's opposition, Smith was apparently referring to a story in the Sept. 16 issue of the Dallas Morning News which reported that Cong. George Bush, GOP

Senatorial nominee "disagrees with the views of Paul Eggers involving the federal highway trust fund."

Bush was quoted as saying money for development of rapid transit systems in metropolitan areas "should come from other sources and not the highway trust fund."

Smith predicted the Republican national administration will make the final decision on the highway funds issue. He and many other officials have called attention to the fact that some \$3 billion in appropriated highway money is being "held back" by the Department of Transportation.

About \$143 million of the hold-back is earmarked for Texas. The Texas Highway Department had to call off its December road contract letting for lack of funds.

"It is perfectly clear that the Nixon Administration is playing

games with highway funds -- not only economic games, as they admit, but political games as well," the Governor declared.

"Right now Republican leaders are reassuring disturbed Texas: 'We'll have good news for you the latter part of October.'"

"What they want to believe is that the national administration will turn loose a big slug of highway money before the General Election. And this could well happen."

"On the other hand, I would warn the highway people not to count the money before it gets here. If the Nixon Administration decides it would be more advantageous politically to please the anti-highway people in late October, we will not get the highway money. This will be a cold, calculated decision made in Washington on a basis of what is best for the Republican Party. What is best for Texas will not enter into the decision."

Update Driving Skills At Refresher Course Monday

Do you occasionally feel like Rip Van Winkle at the wheel of your car?

You haven't been asleep for twenty years, as had Washington Irving's often quoted, lovable character, but times have changed rather rapidly since you drove your first automobile home some years ago.

The Department of Public Safety, the Milam County Committee on Aging and the Home Demonstration Clubs of Milam County would like to help you overcome or at least minimize that "crowded out" feeling you have each time you approach an expressway at rush hour.

These groups are jointly sponsoring a driver's refresher course to be held Monday, September 28, 7:30 p.m. at New

Salem Home Demonstration Club House in Fair Park in Rockdale. This program is open to anyone in the county.

Contents of the sessions is based on best defensive driving techniques, problems related to multiple lane highways and new

driving laws and regulations. Patrolman Floyd Tippet of Hearne will present the training.

There will be no examinations. The primary objective of this course is simply to help you update your driving skills.

TJC Regents OK New Dress Code

TEMPLE
A new dress policy for students at Temple Junior College has been okayed by the Board of Regents -- and by the students as well.

The big change is approval of slacks for women students, most of whom obviously deplore the mid-skirt but expect the coming winter may at times require something more comfy than the popular mini-skirt.

In the past there has been no written dress policy, but rule of reason and mutual consent has in large measure governed acceptable standards of dress.

Key points of the new dress code are these:

1. The most common type of clothing for women is the dress. We make no specific regulation regarding the length, but suggest that the individual student not wear clothing which would be immediately noticeable as an extreme variation from the commonly accepted style.

2. Other acceptable types of clothing for women would include tailored slacks and bouses, pant suits, pantdresses or culottes. This is not intended to mean pajama-type pants or lounge-wear or shorts.

3. Any of the combinations of slacks and sport shirts or slacks and sport coats or suits will be acceptable for men. It is requested that shorts not be worn.

4. All students are requested to wear some type of footwear.

5. The clothing, the hair, and the person of the student are expected to be neat and clean at all times.

"Actually, the students themselves prefer to observe these standards. We've had no real problems and anticipate none," Dr. Farrell said.

Information Sought On Missing Girl

Information is being sought on a missing teenager, Ramona Sue Jones, 15, daughter of Mrs. Marvin McCulloch of Minerva.

Mrs. McCulloch, former resident of Cameron, said the girl left Cameron Sunday and is believed to have gone to Houston. She said her daughter had been in the Waco State Home and was reported to have left the Home Saturday night. This was the fourth time the girl has run away from the Home, Mrs. McCulloch said.

Anyone having information about the missing girl is asked to contact Mr. and Mrs. Marvin McCulloch at Minerva.

Pre-Hearing Settlement

An out-of-court settlement ended a suit brought by Ernest R. Schoppe, Alcoa employee, against Texas Employers Insurance Association that was scheduled to be heard in District court Tuesday.

A \$1,500 settlement was agreed to by both parties shortly before jury selection opened.

L.E. ROSE

Funeral services for Lee Eugene Rose, 64, were held September 20 at the Gause Baptist Church, Rev. Louis Walston Jr. officiating. Burial was in the Gause Cemetery.

Mr. Rose died September 18 after a long illness. He was born May 12 at Vance, Texas and had been a longtime resident of Gause.

He is survived by his wife, Mrs. Lois Rose of Gause; five sons, Lee Eugene Rose, Jr., Robert Wirt Rose, Frank Preston Rose, Harold Don Rose and Larry Rose, all of Gause; five daughters, Mrs. Charles Shufeldt of Cameron, Mrs. Stanley McCallum of Hearne, Mrs. Betty Hicks of Waco, Miss Vera Rose of Gause; 12 grandchildren, three sisters, Mrs. Blanch Dickson of Alameda, California and Mrs. Walter McGee of Waco; five brothers, Howard Rose of Phoenix, Arizona, Alvin Rose, Louis Rose, Melvin Rose and Ernest Rose, all of Waco.

Termites generally attack only dead wood or wood products, but a species found in Panama carries fungi with it to kill trees so the insects can eat them.

Mrs. Ida Rinn, 82, of the Sharp community, died Wednesday in a Rockdale hospital after a short illness.

Funeral service was held at 2 p.m. Thursday at the Sharp Presbyterian Church, the Rev. Stewart Bell officiating. Burial was in the Sharp Cemetery.

Survivors include a son, Louis G. Rinn of Rockdale; two daughters, Mrs. Malitta Galler of Houston and Miss Agnes Rinn of Sharp; a brother, Albert Brockebush of Rockdale; two sisters, Mrs. Rosie Kolla and Mrs. Emma Kirchenwitz, both of Rockdale, and a grandson, Charles Galler of Houston.

Palbearers were Marvin Petty, L. A. Petty, George Triggs, Rufus Graves, Finis Voyles and Wilhelm Backhaus.

William Frank Macek, 75, of the Barclay community near Lott, died Wednesday morning in a Temple nursing home after a long illness.

Mr. Macek was born in Wesley, May 22, 1895, and was a farmer until he retired seven years ago.

Funeral service was at 4 p.m. Thursday at Harper - Talasek Funeral Home chapel, Temple, the Rev. Frank Simcik and the Rev. Donald Davidson officiating. Burial was in Hillcrest Cemetery.

Surviving are three sisters, Mrs. John Mauldin of Troy, Mrs. James Bishop of Temple and Mrs. Olga Englert of Grove, Okla.; a brother, Anton Macek of Cameron, and several nieces and nephews.

Teamsters Out At Hearne Plant

Fifty employees of the Lifetime Doors plant at Hearne are out on strike following a breakdown in talks over a contract with the Teamsters Union. The plant employees 70 workers in their present production schedule.

A representative for Jim Scivally, plant manager, said replacements for striking workers were being hired and production was continuing despite picket lines at plant entrances.

The Teamsters Union was negotiating for a contract with Lifetime Doors, but talks ended when plant officials would not agree to withhold union dues from employees pay checks.

CAMERON, TEXAS

Chevrolet Keeping Pace With '70s Changing Needs

DETROIT
Chevrolet observes its 60th anniversary in 1971 with the broadest coverage of the passenger car market in its history, John Z. DeLoe, general manager, said today.

"Our new cars reflect Chevrolet's intention to keep pace with changing needs and preferences of American buyers throughout the 1970's," DeLoe said.

"From the most luxurious full-sized Chevrolet ever built to our new Vega 2300 economy car, we have a 1971 automobile to match each customer's life style. Each car line responds to today's strong consumer desire for maximum value, utility and quality."

The new Chevrolet, Station Wagons, Chevelle, Monte Carlo, Nova, Camaro and Corvette models go on sale in dealerships on Tuesday, September 29. Vega deliveries began last week.

The regular Chevrolet and full size Chevrolet station wagons have the biggest change of any year in recent history. Chevelle has a new front end treatment, Monte Carlo gets added distinction, Nova has a larger base engine and there are refinements for the popular Camaro and Corvette models.

Chevrolet offers an unparalleled choice of station wagons of 1971 -- three sizes of wagons, each with a different type of tailgate.

The full-size wagons introduce a "Glide-Away" disappearing tailgate. Mid-size wagons have dual action gates and the new small Vega Kamm-back has a one-piece rear window-gate that swings up for maximum accessibility.

Each of the eight car lines has special emphasis upon emissions control. Every Chevrolet car in 1971 is equipped with an Evaporative Control System (ECS) which significantly reduces fuel vapor emissions.

In addition, Chevrolet for 1971 has developed a Combination Emission Control (CEC) valve

mounted on the carburetor which reduces exhaust emissions. The CEC valve also improves engine operation and permits lower idle speed settings. This helps eliminate engine after-run or idling and minimizes automatic transmission creep, reduces engine noise, improves engine cooling and idle fuel economy.

All Chevrolet engines have been designed to operate efficiently on the new no-lead or low-lead gasolines. In addition to the lower exhaust emissions attainable with this engine/fuel combination, there are benefits in longer life for spark plugs, exhaust system and other engine components.

If these no-lead, low-lead fuels are not available, any leaded gasoline with a research octane number of 91 or higher may be used.

Chevrolet in 1971 is publishing two horsepower ratings for each engine -- the gross output without engine accessories and net or as-installed output of the same engine with accessories. Both horsepower ratings are shown on the accompanying specifications sheet.

The net or as-installed test method follows recommended procedure of the Society of Automotive Engineers and represents actual performance of an engine as installed in an automobile.

All Chevrolet car lines use a sealed side terminal battery in 1971. Because the electrical path is completely sealed, this battery eliminates corrosion at electrical terminals.

All Chevrolet engines in 1971 use slim-line spark plugs. This new plug design makes possible use of a hotter plug to provide increased resistance to fouling.

Every 1971 model has extensive safety features for occupant protection, accident prevention and anti-theft.

Chevrolet offers 15 colors for 1971 of which 13 are new. There are up to six two-tone color combinations, five vinyl top colors and two convertible top

colors. The industry's top selling car line blends imaginative engineering and styling in the most luxurious Chevrolet ever built.

NEW BODY

The new body has a longer, engine-oriented hood and a deep, full grille that extends below the bumper. Glass and body contours are more rounded and windows extend further into the roof, giving easier passenger entrance and exit.

Flush, lift-up door handles add to the body smoothness. At the rear, a low decklid and rectangular taillights emphasize width.

The nine Caprice, Impala, Bel Air and Biscayne models have up to 14 percent more glass area for greater visibility. This, plus the low belt line, add to the road hugging look of luxury.

While less than an inch longer

The 1971 regular Chevrolets are the most luxurious the division has ever built. There is greater glass area for improved visibility. Glass and body contours are more rounded. Flush lift-up door handles add to body smoothness. The Caprice gets added distinction with a special large grid grille, deep ribbed wheel covers and standard rear fender skirts. Wheelbase of regular Chevrolet is extended 2.5 inches for added riding comfort and increased rear leg room. The body has a new flow-through ventilation system and greater strength double-panel roof construction. The new chassis and suspension system give improved ride and handling. A power disc/drum brake system is standard. New Chevrolets go on sale Tuesday, September 29.

than 1970 models, the regular Chevrolet has a significant 2.5 inch increase in wheelbase to 121.5 inches. This adds to riding comfort, reduces the front floor transmission hump and increases rear leg room more than two inches in the coupe.

Although the car is lower, a new body-to-frame design allows more head room. Double-panel roof construction has greater strength and sound absorption for interior quietness. New foam-filled seats give greater passenger comfort.

A new flow-through ventilation system provides a controlled supply of outside air to the passenger compartment. The system is in operation whenever the ignition is on and uses

functional louvers at the rear of the car to exhaust air.

The all-new interior has a cockpit-like treatment of the instrument panel and a cushioned center steering wheel. An aircraft-type wiring approach increases instrument panel serviceability. An interior hood release gives added theft protection to the engine compartment.

Market Report

There were 600 cattle and 318 hogs consigned to the Cameron livestock auction Thursday, according to auction barn officials. Prices paid were:

Want To 'Speed-Read'? TJC Is Planning Course

TEMPLE
Will everyone interested in taking a speed-reading course please hold up your hand -- Or contact Temple Junior College?

Plans to offer a non-credit course in speed reading for persons from junior high school to adults have been drawn, but the go-ahead depends on the amount of interest expressed by prospective students.

The class would meet on two evenings a week for 12 weeks, and each class session would last one hour. The course would be repeated each semester.

Tuition for the special course has not been set, but it probably would be about \$35, regardless of whether the person is an adult, college, or public school student.

Persons interested in such a course are asked to call the college at 773-2730, or send a note to the President, Temple Junior College, Temple, Texas 76501.

expressions of interest -- the college just wants to get an idea of prospective enrollment before investing in equipment.

Narcotics Patients Need State Hospital, Says Rep. Kubiak

State Rep. Dan Kubiak of Rockdale is drafting legislation to provide a medical hospital for narcotics patients in the State of Texas.

Speaking in Waco, Kubiak said "It is time for the State of Texas to act on the narcotics problem in a constructive manner. We do not have now nor can we build enough jails or prisons cells to handle the narcotics victims regardless of what some politicians say."

"One out of every sixteen teenagers and young adults have experienced some form of narcotics. No one seems to be concerned about the teenagers and young adults who are currently afflicted," he added.

"They are in trouble and they do not have any place to go and, as a result, progress from one drug to another. In the process, they entice others to 'take the trip with them' either because of insecurity or financial need. In the 1920s, people with tuberculosis were turned away and could not find help anywhere. Medical hospitals were built; today the problem is remedied. "Our office will introduce a proposal in the next legislative session to construct a medical hospital to treat narcotics patients so that those 'hooked' will have some place to turn for medical help. The problem is here and it is critical. We must take this constructive step now or these youngsters and young adults will be lost from society forever," Kubiak stated.

The Sky Fell!

THAT WHITE STUFF at left is rain, falling in torrents Friday afternoon. The towering black thunderheads, shown blotting out the sun, above, have become a familiar sight to area residents, and a welcome sight too, after long months of drought.

Now

With F.M.L.

SEVERAL THINGS--St. Edward Hospital officials Tuesday night during open discussion at Cameron Industrial Foundation's membership meeting said November 15 is the date for dedication of the new \$14 million facility.

Construction is passing the 90 per cent completion schedule and workmen are well along in installation of finishing work on rooms, hallways and interior decor.

NOW-NOW-NOW

If the South Milam oil field continues the gain in production, it will could herald a new economic force in Milam.

Pro-ration is higher than anytime in 21 years, following tightening of oil loss in the Middle East amidst revolution and Arab - Israeli confrontation. This is another relationship which bodes well for a Central Texas County starting in an area totally remote to Texas.

NOW-NOW-NOW

Glasses are easy to lose, but difficult to dispose of.

Your Herald had a pair of men's glasses which it advertised for a number of issues and went unclaimed. They were in the office for 3 or 4 years.

Finally, someone decided the owner would not claim them and threw them into the daily conglomeration of disposed newspaper exchanges, mail and miscellany.

An employee of the City called the same day they were picked up, advising the glasses looked too good to be thrown away and wondering if we had not mistakenly chucked them out.

The alert city employee, unknown to us, has the right idea. But we can't locate the right person for the glasses. Anyone missing a pair of black-rimmed prescription glasses might inquire at the City Maintenance Barn or City Hall if they want them.

Herald employee Mrs. Billy Seaton was overheard telling fellow employee Charles McAtee, "This is our junk drawer, so if you get shoved into it, you'll know where you stand."

Yoe JVs, Freshmen

Drop 2 To Taylor

Yoe's junior varsity lost to Taylor Thursday night to the tune of 27-6 at Taylor Field.

Virgil Jones scored the lone Yoe touchdown. The offense, marred by fumbles, was led by quarterback Glen Cummings and the running of Stanley Rosemond.

Yoe defense looked good and was led by Allan Coleman.

FRESHMEN

The freshmen suffered their first defeat of the season when the Ducks scored 6 to Yoe's 0.

Sound defense allowed just the one Duck touchdown while the offense saw several touchdown passes dropped.

Coaches for the two teams are Ernie Lawrence and Price Minter.

Rogers 12, Academy 7

ACADEMY

Rogers' Homer Smith Friday night, scored on a 2-yard touchdown run in the second quarter and James York went over on a fourth quarter quarterback sneak for an Eagle win over Academy, 12-7.

Academy countered in the second quarter with a 14-yard run by Terry Kelly with Danny McCray converting. Both attempts for extra points failed for the Rogers Eagles following the Smith and York touchdowns.

It was Rogers first win in three games this season.

La Grange 7, Rockdale 0

LA GRANGE

A La Grange halfback ended a scoreless defensive struggle here Friday night when John Mode nicked the final yard for paydirt with 4 minutes remaining.

La Grange converted to make it a 7-0 win over Rockdale Tigers, a 11-7 winner over the Yoemen last week.

A 47-yard drive brought the Leopards to Mode's final dive. La Grange recovered a Tiger fumble at the Tiger 47. Mode led the scoring drive. Rockdale went only to the Leopard 35 in an otherwise tight defensive struggle. It was La Grange's second win and Rockdale's first loss of the year.

La Grange hit no passes, but rushed for almost 250 yards, intercepting three Tiger passes.

Herald Offers

Free Portraits

Your Cameron Herald, Thursday and Weekend, is offering new subscribers and renewals to the semi-weekly a free 8 x 10 color portrait.

In conjunction with professional photographers, your Herald is giving a color portrait either of one member of your family or a family group.

You and your family may receive this free 8 x 10 color picture by:

ONE - Taking out a new subscription to the semi-weekly Thursday and Weekend Herald, \$5.50 per year in the Milam area; \$6.50 per year outside of Milam area, and

TWO - Renewing your subscription to the semi-weekly Herald.

New or renewal subscribers should complete the coupon in the advertisement on page 5 of this edition, enclosing the subscription price.

Sittings will be scheduled late in October.

1 of 6 United Agencies...

Red Cross Help Is Personal

(Another in a series of articles about local agencies supported by the United Fund, which has a budget of \$10,050 for this year. A dinner on Oct. 13 will kick off the annual drive in Cameron.)

The American Red Cross, which has been allocated \$2400 in the UF budget, works on a local level with the local money.

A report of local Red Cross services in Milam County during the past year showed 149 telephone calls and 53 telegrams had been paid for, most of them contacts made for servicemen and their families.

Inquiries handled by the Red Cross Home Service worker included 255 concerning servicemen, 15 for veterans, and 30 for civilians, for a total of 290.

A large part of the funds goes to finance the county blood program.

Cost of the vital blood program to the county Red Cross unit is 8 cents per capita, based on the 1960 census. This amounts to \$1780.

The cost is for collecting and processing blood donated by countians, and for replacing blood used by patients in out-of-region hospitals.

From July 1, 1969 to June 30, 1970 Milam County hospitals used 733 units of blood.

Breakdown of this total shows Newton Memorial Hospital used 134 units; St. Edward Hospital 159; and Richards Hospital 299.

Also used were 242 units for patients in nonregional hospitals.

Blood products used in the county included 16 units of packed red cells and two units of serum albumin.

Less than half, or about 46 percent of local funds are sent to the National

American Red Cross program. This money is used for disaster relief in instances such as Hurricane Felice.

Other services extended through the local Red Cross Chapter include emergency loans to servicemen who may have to fly home and return to their stations. H. D. Maxwell, former chairman of the Milam Red Cross Chapter, said most of the loans are repaid, but a few have to be "written off the books."

George Hutton of Rockdale is presently chairman of the county chapter.

United Fund workers will begin contacting businesses following the Oct. 13 kickoff and the drive in residential areas will be held after the business drive.

Other agencies allocated funds in this year's United Fund budget include Little League, USO, Boy Scouts, Girl Scouts, and Salvation Army.

AREA FOOTBALL ...

Yoe Defeats Trojans, 17-6

An umbrella-equipped crowd saw the Cameron Yoemen pickup their second win of the season by downing the previously undefeated West Trojans by the tune of 17-6.

The Yoemen put together a fine ball game. The offense "put it all together" as they profited on Trojan miscues and drove 33, 14, and 77 yds. to score.

The defense which was strong most of the night yielded the first touchdown from scrimmage scored against them this year. That came with 4 seconds left in the game on a 37-yard pass play. The Yoemen took the opening kickoff. The ball changed hands several times early in the game.

A Trojan drive was spoiled at the Yoe 45 when Ken McLerran fell on a Billy Wolf fumble. From there, the Yoemen drove to the Trojan 12. Where they had to settle for a 22-yard field goal off the toe of senior tackle Joe Lewis.

The first Yoe touchdown, set up by Richard Cummings' fine punt return, came when Edward Whitley scored from 2 yards out. The 2-point conversion try was good as quarterback Robert Brashear, looking to pass, elected to run and barely made it inside the flag for the final score of the half: Yoe 11, West 0.

It was well into the second half before the Yoemen got on the scoreboard with their final tally. This came after the Yoe offense put together a 77-yard march with Brashear getting the final yard. The final conversion failed when Brashear misfired to end Carroll Michalka.

With the scoreboard clock showing 4 seconds left in the game, West quarterback Charles Piscacek completed a strike to halfback Billy Wolf. The try for two failed and the final score stood: Yoe 17, West 6.

The Yoemen took the opening kickoff and failed in their first few series. Well into the first quarter, Ken McLerran, recovered a Billy Wolf fumble at the

Trojan offense. That enabled the Yoemen to gain a little momentum. A 23-yard pass play from Brashear to Halfback Ernie De La Rosa along with some hard running by halfback Emanuel Thomas and fullback Ed Whitley, enabled the Yoemen to be knocking on the door for the first score. Trojan defense stopped the Yoemen at the 12-yard line. And in the fading moments of the first quarter with Brashear holding, Lewis put the Yoemen on the scoreboard 3-0.

Following the kickoff, the Yoe defense stopped the Trojans when Richard Cummings and Whitley battled away a halfback pass to Trojan end Clifton Sullivan. A Trojan punt went to halfback Emanuel Thomas at his own 38. He followed the Yoe forwards and rambled to the West 17 only to fumble to the Trojans.

Once again, the Yoe defense, led by Dale Schigut, John Bailey, and Whitley, rose to stop a potent West offense. Again the Trojans were forced to punt. On the receiving end of this kick was junior quarterback Richard Cummings. Taking the ball at his own 40, the speedy youngster cut and slashed his way 46 yards to the Trojan 14.

Yoe's offense found the going rough as Brashear sent Thomas into the Trojan defense for 5 tough yards. De La Rosa a 180 pound freshman, ripped off 3 more yards to the Trojan 6. Thomas dove inside the 5 for a first and goal. Thomas and De La Rosa moved the ball to the 2-yard line where Whitley scored on a third down. The 2-point conversion was good as Brashear, looking to throw, was forced to run and dove into the endzone. Time ran out in the half with the Yoemen owning the ball at the Trojan 37, Cameron 11 - West 0.

Following the second half kick to the Trojans, the Yoe defense once more snuffed out a fourth down pass try by West.

Yoemen took over at their 32. First play from scrimmage De La Rosa broke loose on a 25-yard scamper to the Trojan 40. Brashear sent Thomas for a tough three yards. Whitley took the next call for 4 yards to the Trojan 35. De La Rosa answered another call with a 22-yard gain to the Trojan 13. There seemed to be no stopping the young Yoe halfback as Brashear handed off to De La Rosa once again, who ripped off 11 yards to the Trojan 2. First and goal, De La Rosa took the ball, but is stopped after only a yard. With 6:31 remaining, Brashear followed a block by his center and fell into the end zone.

The Yoemen then lined up in running formation on a two-point conversion try. Brashear dropped back and misfired to his favorite receiver, Carroll Michalka.

The Yoemen once again kicked off to West. The defense took its test of the night as the defense Norman Trubee, John and Jim Bailey, Sam Knight, Joe Lewis, Joe Vaculin and Whitley came up withone big play after another.

The Trojan offense was not to be denied. West drove to the Yoe 18 in the fading moments. Piscacek, although intercepted once by Yoe safety Joe Vaculin, hit several passes which brought the Trojans within scoring range. The Yoe defense took over at the Yoe 25 after Trojan pass falls astray.

The home crowd sensed victory and started to leave the stadium. In fact most had already left when Trojan quarterback, Piscacek, with 4 seconds showing on the clock, fell back and lofted a 37-yard pass to halfback Wolfe for

the lone Trojan score. Try for two failed and the Yoemen have a 2-1 season to carry to the threshold of the Rosebud-Lott Cougars.

School Rate Up, City, County Unchanged

Tax notices for county, city and schools are being prepared this week for mailing after October 1. Tax rolls have increased for all three units through annexations, higher valuations and increased valuation rates.

CISD TAXES

Cameron School taxes show a one-third increase, from a total \$197,265.79 last year to \$260,944.71 this year. CISD property owners will be paying \$1 on 50 percent of actual property value. Previously the rate was \$1.50 on 25 percent of actual value.

For individual property owners, for example, it means property valued at \$4,000 that drew a tax of \$15 last year will be taxed \$20 this year.

School tax notices will be in the mail Monday.

COUNTY TAX

County taxes will remain the same for most in Milam County although valuations are up \$1,173,080 over last year. The increase reflects improvements in manufacturing plants and railroad property.

Valter White, county tax assessor-collector, said tax notices to be mailed Thursday will total \$456,026. This will be divided into four units with the county receiving \$334,858, the state \$111,714, watersheds \$6,398.18 and county schools \$3,054.96.

CITY TAX

Annexation of over 4,000 acres north of Cameron is reflected in City tax rolls, up \$7,000 for 1971.

City Secretary J. B. Fuller said tax notices totaling \$116,458.61 will be mailed to city property owners Monday. Tax notices last year totaled \$109,911.79.

Fuller said city services have been extended to the newly annexed section with the completion of water and sewer lines this summer.

Minerva Homecoming

The annual homecoming at Minerva will be held Sunday, Oct. 4 at the Minerva Community Center. Mrs. Harvey Dean, publicity chairman said, "All friends of the community are invited to bring a basket lunch and join us," she said.

Rosebud-Lott 48, Reicher 0

WACO

Rosebud-Lott, the next grid opponents of the Cameron Yoemen, like now vanquished West, crushed Waco Reicher Friday night 48-0. West had defeated Reicher 28-0 a week ago.

The Cougars scored in every quarter, almost at will, as quarterback Kenneth Coulter engineered R-L's third straight win, leaving the post to an understudy most of the second half.

Coulter himself scored from 14 and 27 yards out and threw a 16-yard strike.

Reicher could not move the ball against the R-L Cougar line, which in three games is unscored upon. The Reicher club went in to Rosebud-Lott territory once in the game.

Rosebud scored seven touchdowns, Coulter first from 27 yards out, Tim Kirksey converting one of the three times during the evening.

Mark Olbrich scored on a pass interception and Coulter hit end Kevin Scott for the third score of the first half.

Coulter, Haupt and Williams scored touchdowns in the second half from scrimmage while R-L's Luther Alexander went 15 yards with an interception for a score. And Kirksey kicked a 32-yard field goal.

Statistics showed Reicher with a minus 22 yards rushing. Rosebud-Lott led every department by huge margins. They play Cameron next week.

Drama From The Undramatic...

Cameron and Milam County are seeing dramatic results of undramatic planning.

Something galvanizes people when they can unleash energies in proper perspective, proper direction with measured cadence in unison.

Looking back, we sometime wonder how all this cohesion comes about. . . .except to know the "frame of reference" is broad here and focused on Cameron and Milam County's role in a much larger scheme of things.

Industrial development is a notable success here because 15 men, of divergent view, of different age, of varying background contribute to one major effort which creates problems as it solves others.

Coming up will be an analysis by Cameron Industrial Foundation of a continuing problem in all small cities -- and major ones for that matter -- the matter of adequate housing.

The other elements continue to fall in place, mainly we think, because people want them to. Perhaps concerted

attention will likewise resolve this community problem. It is already alleviated by other efforts. But as industrial development grows, so will this particular need.

It appears to us respect is displacing popularity in individual attitudes among Cameronites and Milam Countians. That is a major achievement, the cornerstone of productive effort limited only by energy and foresight.

How often we are admonished to "get into the spirit of the thing" whatever the "thing" might be. If it is industrial development or resolution of community problems once long standing, Cameron and Milam County have the spirit.

It is powerful stuff, heady stuff, community success. It is inevitably individual success stories, which join here for whatever gains county-seat Cameron continues to make.

We wouldn't have it any other way.

Hunters' Questions About 1968 Gun Law Answered

DALLAS
Hunters from the Southwest have been contacting Internal Revenue's alcohol tobacco and firearms division in trying to find out how the Federal Gun Control Act of 1968 affects them. "Apparently many hunters are under the impression the Gun Control Act seriously restricts their right to hunt," said Bill L. Gaunt, ATF assistant regional commissioner. "The primary purpose of the law is to disarm criminals, not regulate sportsmen," he said.

Gaunt said ATF investigators are being asked a great many questions about the Law, especially during the current hunting season.

"Here," he said, "are some of the questions we have been asked, and the answers we give."

Q: My neighbor has asked me to go quail hunting with him this fall. This means that I must buy a shotgun. Under the 1968 Gun Law, how do I go about buying this gun?

A: Go in person to an authorized gun dealer. Identify yourself and sign a form stating you are not prohibited by the federal gun control act from receiving guns or ammunition in interstate commerce.

Federal law states that guns and ammunition cannot be sold to individuals who are under indictment for or convicted of a felony, or fugitives from justice, or unlawful users of drugs, or persons who have been adjudged mentally defective.

Also included are those who have been dishonorably discharged from the armed forces, aliens who have illegally entered the United States, and persons who have renounced their American citizenship.

Of course, if you are under 18 years of age you cannot buy guns or ammunition at all. If you are between 18 and 21 you can buy shotguns, rifles, and ammunition for them; but not handguns or handgun ammunition.

Q: I'm from North Texas and plan to hunt deer in Colorado. Can I buy ammunition there or should I take what I need with me?

A: You can buy ammunition in another state as easily as you can in your own. Just go to a dealer and identify yourself. You are not required to sign anything.

ever, that you are not prohibited by federal law from receiving guns or ammunition in interstate commerce.

Q: I own a small ranch in Oklahoma and have always carried a carbine on the gun rack in my pickup truck. Two weeks from now, I plan to deliver some breeding stock to a buyer in Kansas, and would like to do some hunting while there. Can I take my gun across the state line?

A: As far as the federal gun control act is concerned, you need not notify nor obtain permission from anyone to transport the carbine in your pickup. Keep in mind, however, that some states have laws governing the transporting of firearms.

Q: I live in Albuquerque and have taken my daughter hunting each year since she was a little girl. Recently she married and moved with her husband to El Paso. We'll visit them in El Paso during Thanksgiving and I'd like to give her the .410 shotgun she used. Can I legally give it to her

without breaking the federal gun law?

A). Although you cannot transfer the gun yourself, there is a legal way to accomplish what you want done. Go with your daughter to a licensed gun dealer. Transfer the gun to the dealer who, in turn, will transfer it to your daughter. The gun dealer will record the transaction and, from a legal standpoint, it will be the same as if your daughter were buying the gun direct from the dealer.

As a concluding statement, Gaunt said it is important that hunters and sportsmen check on local and state laws, such as game laws and state firearms control laws, which may also affect their hunting activities.

'Hard Times' Find

East Texas - Oilman's Dream

(Ed Note: Following is the second in a 3-part series on the fabulous East Texas oil field discovery that brought wealth to many Texans, but only debt for it's discoverer.)

DALLAS--Forty years ago on September 5, 1930, Columbus Marion "Dad" Joiner found oil in the piney woods of Rusk County, ushering the East Texas field.

The greatest field in the world at the time, it reshaped the destiny of Texas and gave the United States an unparalleled oil supply. The nation has dipped into this reservoir time and again to meet emergencies brought on by World War II, Korea, two Middle East wars, and four decades of intermittent conflict.

"We are now drawing on this great field again to meet the present tanker crisis occasioned by the events in the Middle East and Libya," says Kenneth E. Montague, president of the Texas Mid-Continent Oil & Gas Association, in commenting on the fortieth anniversary of the discovery. "We are fortunate that enlightened conservation measures have preserved this field far beyond the brief life of others discovered in that era."

More than four billion barrels of oil have been produced from the East Texas reservoir. Oil men consider a field that will produce 100 million barrels of oil a giant -- and East Texas still has oil left.

In the beginning, The Joiner discovery couldn't have come at a better time. The nation was in

the trough of the Great Depression and East Texas had been hit particularly hard as it had just endured two years of unprecedented drought.

The hard times were mirrored in Joiner's drilling rig: a ramshackle derrick made from yellow-pine timbers and an antiquated engine driving a worn-out drawworks and pump. This was the machinery that had been boring on Mrs. Daisy Bradford's farm for three years -- with bad luck dogging Joiner's every step.

Seventy years old at the time, in poor health, and almost broke, Joiner had already failed twice -- junking one hole at 1,098 feet in February, 1928, and the second at 2,518 feet with stuck pipe in the hole in March, 1929.

But his driller, Ed Laster, had pushed the third try to 3,536 feet into the Woodbine sand where the oil was thought to lie -- though it took an agonizing year and four months. Laster was to say later, "If we'd had a rig that wasn't held together with safety pins and bailing wire and if we'd had the money to pay the crew, we could have drilled this hole in six weeks."

One account of the discovery says the well spouted oil over the top of the derrick when the test tool on the bottom of the drillpipe was opened. Another reports that the test tool failed to open. Still another says a core was brought up from the well and Joiner said, "It's oil all right."

No matter how it happened, the discovery wrought a tremendous change in Texas. It was the herald of a new era and a new order of society.

Early wells in the East Texas field drew big crowds. Here is the bringing in of the No. 1 J. K. Lathrop in Gregg County. This well was 27 miles north of the Joiner discovery and gave the first inkling of the huge scope of the field.

Texas in 1930 was predominantly an agrarian society of farmers and ranchers whose crops were cattle and cotton. Native capital was in short supply. With the development of the East Texas field came a new breed of Texans: petroleum engineers, geologists, refiners, roughnecks, pipeliners and men skilled in "putting together a drilling deal" -- in short, men experienced in finding and producing oil.

With these men came money, as East Texas gushed capital in a black torrent. This was the capital that led to the discovery of oil on the Texas-Louisiana coastal plain, in deep West Texas pools and throughout the state. Many of the skyscrapers that began to rise in Houston, Dallas, San Antonio, and Fort Worth had their foundations in the Woodbine sands.

The boom is on. News and pent-up excitement over the find

had been building for a month before the well was brought in. Major company oil scouts -- thinking the well had possibly been "salted" with oil and leery of the shaky East Texas land titles (these weren't settled until years after the discovery) -- hadn't paid much attention to the well.

But the East Texans did. Here was water in the desert and manna in the wilderness for the impoverished area.

Continued next issue.

Open House To Open Ford Terrys

Mr. and Mrs. Ford Terry will be honored with an Open House in their home at 927 Harvard St., Houston, on Sunday, October 4, celebrating their 50th wedding anniversary.

Hosts for the 2 to 5 p.m. Open House will be the couple's children.

Mr. and Mrs. Terry are natives of Cameron and made their home here until 1942 when they moved to Brady and later to Houston.

Miss Massengale Mr. Caroom Wed

Miss Patricia Carol Massengale and Mr. Douglas Grady Caroom were married at 7:30 p.m. Saturday at St. Luke's-on-the-Lake Church at Lake Travis.

The bride is the daughter of Col. and Mrs. Herbert W. Massengale of Austin and the granddaughter of Mrs. H. W. Massengale of Cameron. She is a graduate of the University of Texas at Austin.

The groom, son of Prof. and Mrs. Hiram Caroom of Timonium, Maryland, is also a graduate of the University of Texas at Austin and is presently a teaching assistant in the Dept. of Zoology at the University.

The bride was given in marriage by her father. She wore a gown of silk organza and Venice Baroque lace in princess silhouette. The molded bodice with lace ringed Victorian collar featured brief puffed medallion sleeves handed in lace. A panel with pleated organza edged in lace, centered with self-covered buttons, extended from the neckline to the lace encircled hemline. The slim stemmed skirt was fashioned with a court train edged in lace and fell to a chapel length. Her elbow length veil of silk illusion fell from calet of lace leaves with looped velvet bark bows enhanced with seed pearls. Her bouquet was a cascade of stephanotis, gardenias and baby's breath.

Attendants were Miss Deanna Cluck of Lubbock, Mrs. Ray Porter, sister of the groom, of Nashville, Tennessee, and Miss Sue Petty, cousin of the bride, from Rockdale. They wore ankle length dresses of violet chiffon over linen with lace trim. They each carried a cascade bouquet of deep purple asters.

Peyton Thompson of Houston was best man. Groomsmen were Larry Wolfe of Washington, D. C. and Chris Yurkman of Chicago, Ill. The couple's brothers, Mike Massengale and Phillip Caroom, served as ushers.

Following the wedding ceremony a reception was held at the Lost Yearling Steak House at Lake Travis.

MRS. DOUGLAS GRADY CAROOM

To Mr. and Mrs. George Knappek of Granger, a girl, Jacqueline Denise, born at 12:16 p.m. September 11, 1970, 7 pounds 13 1/2 ounces at Johns Community Hospital in Taylor. Grandparents are Mr. and Mrs. Joe Sevcik of Buckholts and Mr. and Mrs. John Knappek of Granger.

To Mr. and Mrs. George Freeman of Cameron, a boy, David, born Sept. 22 at St. Edward Hospital.

To Mr. and Mrs. Willie Oliver of Cameron, a boy, James Michael, 7 pounds 10 ounces born Sept. 24 at St. Edward Hospital.

You Don't Say ...

EXTEMPORANEOUS

If you are referring to made, done or uttered on the spur of the moment without any prior planning or preparation.

IMPROMPTU (im PROMP too) is correct for the above.

EXTEMPORANEOUS (ex TEM po RAY nee us) is applied chiefly to formal speeches and signifies that they are not read. Their content may have been planned but not in exact words.

I emphasize, declare, stress and assert that a powerful vocabulary is the means by which the impromptu speaker wins and wins his audience.

Copr. by Adria Allen

Baker-Daigle United At St. Mary's Church

A recent wedding at St. Mary's Catholic Church, Hearne, united Catherine Theresa Daigle and Jesse Kirkland Baker.

The bride, a student at El Centro College in Dallas, is the daughter of Mr. and Mrs. John Daigle of Church Point, La. Mr. Baker is the son of Mr. and Mrs. Dillard Baker of Houston and Gause. He is a graduate of the University of Texas and received a Dr. of Jurisprudence Degree from SMU Law School. He is a member of Kappa Sigma fraternity.

The bride was given in marriage by William R. Niblack of Houston. She wore a gown of angel skin peau fashioned with a scalloped Sabrina neckline of re-embroidered aliencon lace sprinkled with pearls. The lace extended onto the full cuffed Camellot sleeves and cascaded in a wide scalloped panel on the A-line silhouette to the hem. Two back panels flowed down into the full attached chapel length train and were outlined with lace extending around to the front panel.

Honor attendants were Miss Clara Smith of Church Point, La. and Mr. Roger Thomas Baker of New Orleans, La., brother of the groom.

Following the family wedding the Bakers honored the couple with a reception at their ranch home in Gause. Assisting in the houseparty were Mrs. Roger T. Baker of New Orleans, Mrs. William R. Niblack of Houston, Mrs. Webb Small of Beaumont and Mrs. Richard Gulnan of Dallas.

The Bakers are at home in Dallas following a wedding trip to Acapulco.

BIRTHDAY HONOREE
Raymond C. Bynum Jr. was honored with a 'pre-birthday' party Saturday, September 26, at West Cameron Grove Center. Friends and relatives helped celebrate the youngster's third birthday.

Program for the September meeting will be a review of the book "True Grit" presented by Mrs. Hazel Richardson, Bryan Librarian.

Friends of the Library membership drive is still in progress and prospective members will have an opportunity to join at the September meeting. In addition to the varied programs open to members, the Library Friends participate in projects benefiting the local library. Dues this year, as in the past, will provide additional opening hours for the Cameron Library.

Friends will also sponsor a book fair later in the fall when duplicate copy volumes received at the library will be sold to the public. Proceeds will be used to purchase new books.

Hosts for the meeting Wednesday will be Friends of the Library officers.

Book Review For Pleasure Profit Club

Mrs. R. M. Clark was hostess for the Pleasure and Profit Club meeting at her home Thursday afternoon. African Violet plants, Mrs. Clark's hobby, were placed at vantage points throughout the house.

"The Saber-Tooth Curriculum" by J. Abner Peddwell was reviewed by Mrs. Herbert Nance. The foreword was written by Harold Benjamin who is a former Dean of the College of Education at the University of Colorado and the University of Maryland. He is Professor Emeritus at George Peabody College for Teachers.

The book is a series of five satirical lectures tracing the "Three R's" evolution to today's many faceted curriculums in colleges of education.

Mrs. J. A. Bowling, club president, conducted a short business session with twelve answering the roll call.

A salad plate and lemonade were served to members and one guest, Miss Christine Laws.

The Pleasure and Profit Club will meet October 8 with Mrs. Bartow Jackson.

Luncheon For Guests

Mrs. C. W. Bradbury was hostess for a luncheon Sunday, September 20, following the christening of her granddaughter, Elizabeth Bradbury Elliott.

Out of town guests included paternal grandparents, Mr. and Mrs. A. B. Elliott of Victoria; Mr. and Mrs. J. D. Kercheville and Kevin of Houston and Dick Jenness of Boston.

Also, Dr. and Mrs. H. C. Watson of Waco, Mrs. Joe Hale of Waco, Mrs. Tom Meredith of Lufkin, and Mr. and Mrs. Alfred Poetter of Franklin.

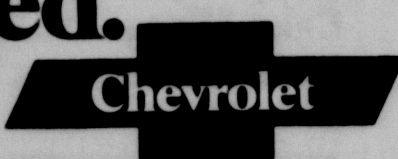

Personal Mention

B. F. Archer, owner of Archer Electric, is a patient at St. Edward Hospital following surgery last week.

Mrs. Ella Hooks Dobbins, who will observe her 93rd birthday Tuesday, has been visiting in Houston for several weeks.

A Lot of Change Since '81.
Since 1881, 63 countries have used pure nickel for 159 denominations of coins in 237 types.

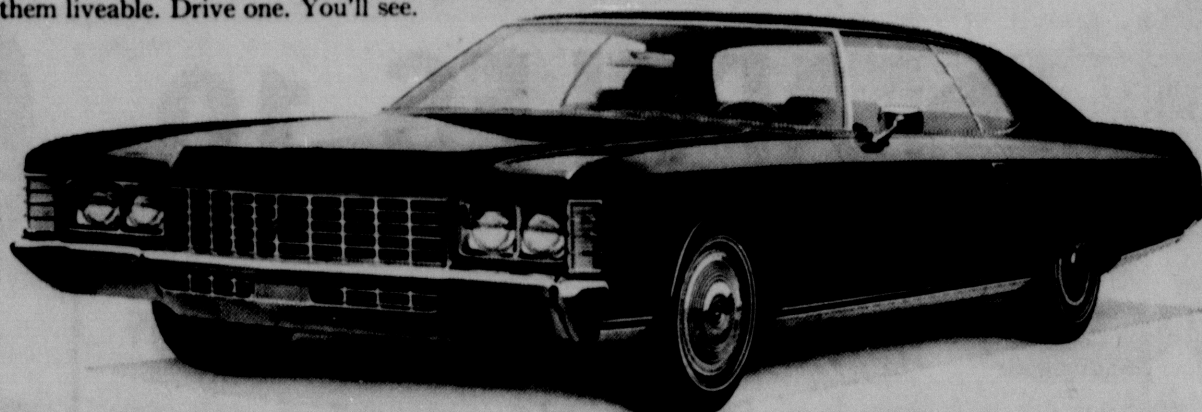

1971. You've changed. We've changed.

Worth seeing. Worth owning.
Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's.

Termites generally attack only dead wood or wood products, but a species found in Panama carries fungi with it to kill trees so the insects can eat them.

Mrs. Ida Rinn, 82, of the Sharp community, died Wednesday in a Rockdale hospital after a short illness.

Funeral service was held at 2 p.m. Thursday at the Sharp Presbyterian Church, the Rev. Stewart Bell officiating. Burial was in the Sharp Cemetery.

Survivors include a son, Louis G. Rinn of Rockdale; two daughters, Mrs. Malitta Geller of Houston and Miss Agnes Rinn of Sharp; a brother, Albert Brockenbush of Rockdale; two sisters, Mrs. Rosie Kolia and Mrs. Emma Kirshenwitz, both of Rockdale, and a grandson, Charles Geller of Houston.

Pallbearers were Marvin Petty, L. A. Petty, George Triggs, Rufus Graves, Finis Voyles and Wilhelm Beckhaus.

William Frank Macek, 75, of the Barclay community near Lott, died Wednesday morning in a Temple nursing home after a long illness.

Mr. Macek was born in Wesley, May 22, 1895, and was a farmer until he retired seven years ago.

Funeral service was at 4 p.m. Thursday at Harper - Talasek Funeral Home chapel, Temple, the Rev. Frank Simcik and the Rev. Donald Davidson officiating. Burial was in Hillcrest Cemetery.

Surviving are three sisters, Mrs. John Mauldin of Troy, Mrs. James Biskup of Temple and Mrs. Olga Englist of Grove, Okla.; a brother, Anton Macek of Cameron, and several nieces and nephews.

Teamsters Out At Hearne Plant

Fifty employees of the Lifetime Doors plant at Hearne are out on strike following a breakdown in talks over a contract with the Teamsters Union. The plant employees 70 workers in their present production schedule.

A representative for Jim Scivally, plant manager, said replacements for striking workers were being hired and production was continuing despite picket lines at plant entrances.

The Teamsters Union was negotiating for a contract with Lifetime Doors, but talks ended when plant officials would not agree to withhold union dues from employees pay checks.

CAMERON, TEXAS

Chevrolet Keeping Pace With '70s Changing Needs

DETROIT Chevrolet observes its 60th anniversary in 1971 with the broadest coverage of the passenger car market in its history, John Z. DeLoorean, general manager, said today.

"Our new cars reflect Chevrolet's intention to keep pace with changing needs and preferences of American buyers throughout the 1970's," DeLoorean said.

"From the most luxurious full-sized Chevrolet ever built to our new Vega 2300 economy car, we have a 1971 automobile to match each customer's life style. Each car line responds to today's strong consumer desire for maximum value, utility and quality."

The new Chevrolet, Station Wagons, Chevelle, Monte Carlo, Nova, Camaro and Corvette models go on sale in dealerships on Tuesday, September 29. Vega deliveries began last week.

The regular Chevrolet and full size Chevrolet station wagons have the biggest change of any year in front end treatment. Monte Carlo gets added distinction, Nova has a larger base engine and there are refinements for the popular Camaro and Corvette models.

Chevrolet offers an unparalleled choice of station wagons of 1971 - three sizes of wagons, each with a different type of tailgate.

NEW TAILGATE

The full-size wagons introduce a "Glide-Away" disappearing tailgate. Mid-size wagons have dual-action gates and the new small Vega Kammback has a one-piece rear window-gate that swings up for maximum accessibility.

Each of the eight car lines has special emphasis upon emissions control. Every Chevrolet car in 1971 is equipped with an Evaporative Control System (ECS) which significantly reduces fuel vapor emissions.

In addition, Chevrolet for 1971 has developed a Combination Emission Control (CEC) valve

mounted on the carburetor which reduces exhaust emissions.

The CEC valve also improves engine operation and permits lower idle speed settings. This helps eliminate engine after-run or idling and minimizes automatic transmission creep, reduces engine noise, improves engine cooling and idle fuel economy.

NEW BODY

The new body has a longer, engine-oriented hood and a deep, full grille that extends below the bumper. Glass and body contours are more rounded and windows extend further into the roof, giving easier passenger entrance and exit.

Flush, lift-up door handles add to the body smoothness. At the rear, a low decklid and rectangular taillights emphasize width.

The nine Caprice, Impala, Bel Air and Biscayne models have up to 14 percent more glass area for greater visibility. This, plus the low belt line, add to the road hugging look of luxury.

While less than an inch longer

The 1971 regular Chevrolets are the most luxurious the division has ever built. There is greater glass area for improved visibility. Glass and body contours are more rounded. Flush lift-up door handles add to body smoothness. The Caprice gets added distinction with a special large grid grille, 2.5 inches for added riding comfort and standard rear fender skirts. Wheelbase of regular Chevrolet is extended ventilation system and greater strength double-panel roof construction. The new chassis and suspension system give improved ride and handling. A power disc/drum brake system is standard. New Chevrolets go on sale Tuesday, September 29.

panel roof construction has greater strength and sound absorption for interior quietness. New foam-filled seats give greater passenger comfort.

A new flow-through ventilation system provides a controlled supply of outside air to the passenger compartment. The system is in operation whenever the ignition is on and uses functional louvers at the rear of the car to exhaust air.

The all-new interior has a cockpit-like treatment of the instrument panel and a cushioned-center steering wheel. An aircraft-type wiring approach increases instrument panel serviceability. An interior hood release gives added theft protection to the engine compartment.

Market Report

There were 600 cattle and 318 hogs consigned to the Cameron livestock auction Thursday, according to auction barn officials. Prices paid were:

Want To 'Speed-Read'? TJC Is Planning Course

TEMPLE

Will everyone interested in taking a speed-reading course please hold up your hand -- Or contact Temple Junior College?

Plans to offer a non-credit course in speed reading for persons from junior high school to adults have been drawn, but the go-ahead depends on the amount of interest expressed by prospective students.

Narcotics Patients Need State Hospital, Says Rep. Kubiak

State Rep. Dan Kubiak of Rockdale is drafting legislation to provide a medical hospital for narcotics patients in the State of Texas.

Speaking in Waco, Kubiak said "It is time for the State of Texas to act on the narcotics problem in a constructive manner. We do not have now nor can we build enough jails or prisons cells to handle the narcotics victims regardless of what some politicians say."

"One out of every six teenagers and young adults have experienced some form of narcotics. No one seems to be concerned about the teenagers and young adults who are currently afflicted," he added.

"They are in trouble and they do not have any place to go and, as a result, progress from one drug to another. In the process, they entice others to 'take the trip with them' either because of insecurity or financial need. In the 1920s, people with tuberculosis were turned away and could not find help anywhere. Medical hospitals were built; today the problem is remedied.

"Our office will introduce a proposal in the next legislative session to construct a medical hospital to treat narcotics patients so that those 'hooked' will have some place to turn for medical help. The problem is here and it is critical. We must take this constructive step now or these youngsters and young adults will be lost from society forever," Kubiak stated.
